

# Understanding Seasonality of Deaths in Relation to Age Group

...

Aditi Deshpande

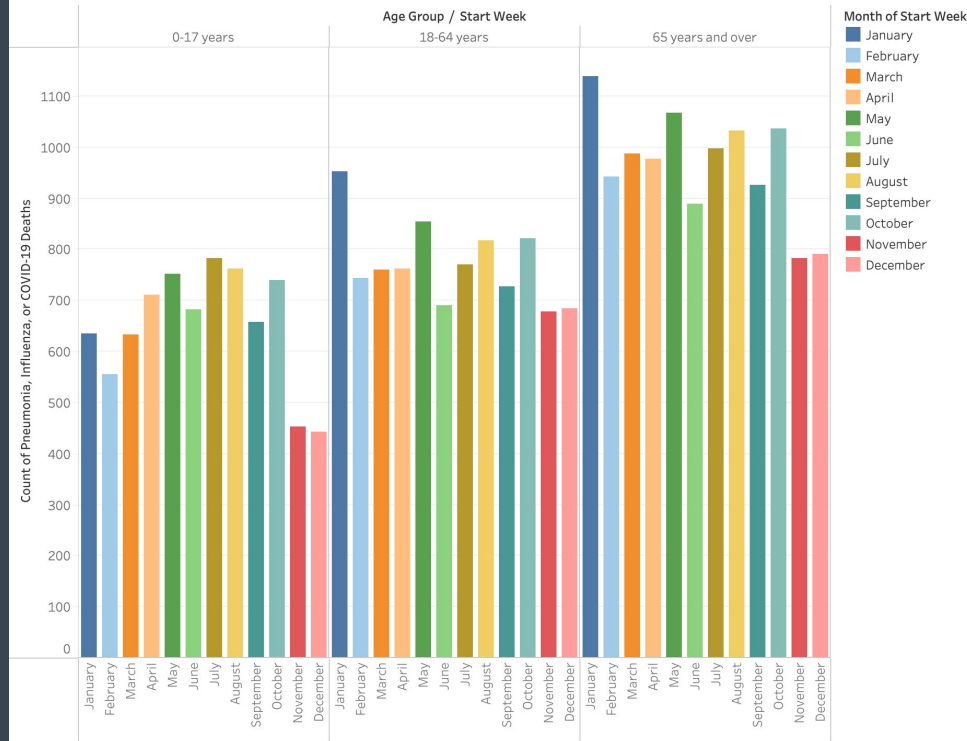

Age Group	Start Week											
	January	February	March	April	May	June	July	August	Septemb..	October	November	December
0-17 years	229	218	258	302	341	311	363	349	281	261	176	175
18-64 years	953	743	760	761	854	689	770	818	726	809	677	685
65 years and over	1,139	942	988	977	1,066	889	998	1,033	926	1,035	783	791

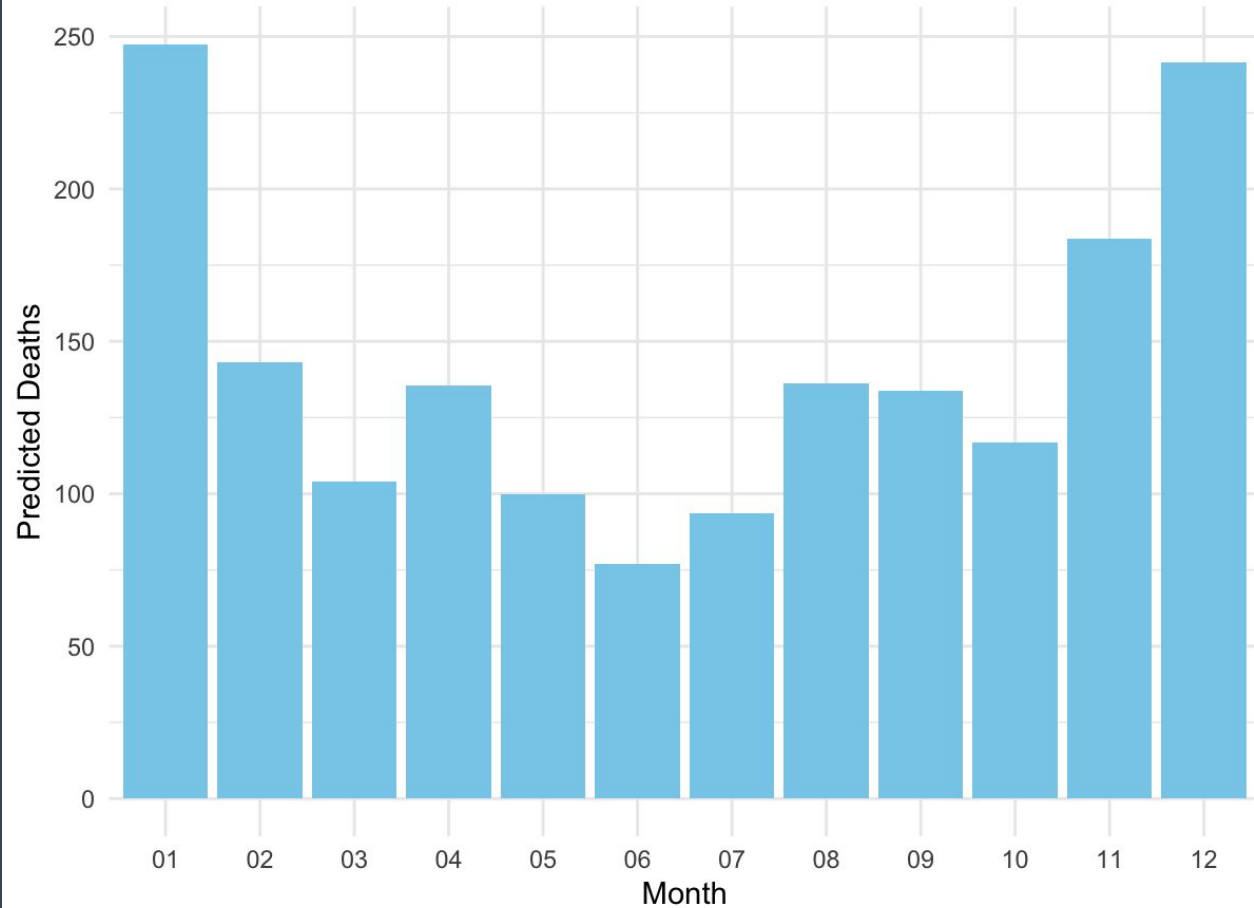

## Sheet 8

Count of Pneumonia, Influenza, or COVID-19 Deaths for each Start Week Month broken down by Age Group. Color shows details about Start Week Month. The data is filtered on Start Week Year, which has multiple members selected. The view is filtered on Age Group, which keeps 0-17 years, 18-64 years and 65 years and over.

Chi-Squared Test:  
P-value < 2.2e-16

Predicted Deaths by Month
